

Born in Argentina, I am a **Systems Analyst** residing in Paraguay with experience in **Information Technology**, particularly in **testing**, **QA**, and **back-end development**. I focus on improving system reliability, optimizing processes, and enhancing performance. I am looking for a role where I can apply my skills in quality assurance and back-end development while building my career and gaining more experience in the field.

# DIAZ JARA DAVID ARIEL

INFORMATION SYSTEMS ANALYST  
JR. QA-TESTER  
JR. BACK-END DEVELOPER

## EXPERIENCE

### Web Page Development

#### Agency travel "Travelers"

Developed a website using **React**, created a Single Page Application (**SPA**) with various features to optimize and ensured a user-friendly browsing experience, while adhering to **UI/UX** principles.

### Back-end and QA Tester

#### Zataca Systems (2023-12-01 - 2024-12-01)

I began working on different projects as a **QA tester** and **back-end developer**, applying testing concepts to ensure their quality such as **API test**, **Unit test**, **cypress** and adding **new features**.

## PROJECTS

### Pet-Shop Website (Front-End)

**April 2023 – May 2023**

Full responsive Petshop website developed with **Next.js** and **Tailwind**

### Hotel Website (Front-End)

**March 2023 – April 2023**

Full responsive Hotel web site for a company using **React** and **Tailwind**

### CRUD Web System (Full-Stack)

**January 2023 – March 2023**

The pre-project I presented for my tittle of **Information Systems Analyst** consisted in a web system with system security and interface to manage the data (**CRUD**) for a car dealership using **HTML**, **CSS**, **JavaScript**, **PHP**, **MySQL** and **Bootstrap**.
